0.- OBJECTIVES

This camp is organized and planned to provide educational and training structures, based on respect and order, among other traditional values in the military and in our traditional Spanish culture. It is adapted and designed for young people of both sexes, from 11 to 21 years old, who have certain concerns related to the Armed Forces and the State Security Corps, or who are simply attracted to the activities of a very different camp where classes and physical and technical activities that have nothing to do with other camps, and that outside of this one are very difficult to acquire. It is not a camp exclusively for children of military personnel, everyone can come, although it is true that approximately half of the attendees are children or grandchildren of military personnel and members of the State Security Corps. Of course, the forms and manners are very similar if not the same as the real ones in professional life, but adapted and nuanced, and without ever losing sight of the fact that it is a summer youth camp, in which the attendees are children and adolescents. , and that one of the fundamental premises is that they should have a good time, they should learn new things, they should coexist with their classmates, give rise to camaraderie, camaraderie, and that in the multiple activities that are carried out, they must be done safely.

It is not a camp where we are going to kill time, but we are going to take advantage of it, both in physical and theoretical activities, all of them are aimed at personal autonomy, sufficiency, personal security, and aimed at teamwork in the heart of a unit, in which they are framed and which they end up identifying as their own. Each one will be given the physical intensity in the activities they need and demand, always thinking that both the assistant who requests and needs more intensity in physical exercise, and the one who has less capacity, must be satisfied, and that both will make their camp. with complete satisfaction, since it is still a youth camp.

If it must be taken into account that most of today's kids are not in the habit of exercising all day, and for most of them it is hard, but it must be that way, we must resemble as much as possible the rhythm of life of a unit , (since many kids come to check if their vocation is real or an illusion, and others simply to do a different camp), that's why we recommend that they go on hikes and

Go out for a run and exercise months before to promote a certain hardening so that you can complete it and enjoy it more.

They will have as monitors our officers, some active military, others already retired or in the reserve; from different bodies of the Armed Forces and Civil Guard, who will guide them in the possible paths to enter the FAS as professional soldiers or in the different academies for officers and non-commissioned officers, if they want, even in professional training paths or in university careers in civilian life.

A period of order, where the young person is given educational structures, the need to comply with an established schedule, with obligations and services, very well structured and organized, where there is no room for laziness or personal neglect, and which can be very useful not only in later military life if there is one, but also in any area of civilian life, and it can be a very valid principle to structure your personality.

It is not a punishment camp, nor a disciplinary camp, nor for bad guys, we expel the bad guys. Excited boys and girls come to our camp, always voluntarily, it is essential that they come by their own choice and completely voluntarily, full of desire to have a good time, to learn, and to share experiences.

1.-THE CAMP AND COVID-19

In the years 2020, 2021 and 2022, the camp was held with complete normality, complete normality means that without the use of masks or safety distances, throughout the camp that lasts a month in its entirety, and after hosting more than 600 attendees each year and the corresponding monitors, we did not have anyone infected inside. We achieved this milestone because a very complete and strict, almost cruel, security protocol was applied with the best and highest quality of technical means available, being in a closed and private property,

and with exclusive use, and strict surveillance, we managed to establish a safe bubble that was maintained until the end of the camp. It was achieved because we established methods far above what was required by the different youth departments of the autonomous communities of the country. For the entire duration of the camp, however, we maintained personal surveillance, in addition to already having a protocol to apply in case of having a positive, which was not necessary to implement.

At the time of creation of this informative PDF, (September 2023) it seems that it will not be necessary to implement such protocols in the summer of 2024, but know that we have experience in them and if necessary they would be implemented again by that time. another cause with all the technical means at our disposal.

2.- STAFF

The camp has a human team of exceptional qualities, all of them have extensive experience in military-oriented youth camps.

- DIRECTOR, for 12 years professional Civil Guard, (from 18 to 30), assigned to various operational units of the Corps throughout the country, now retired and a legal professional, will be the one who supervises and remains in the camp for the entire duration of the camp, as last and first responsible, and who will supervise the instructors and will ensure the proper functioning of activities. Trained with the corresponding qualifications as monitor and Director of Leisure and Free Time at the Pere Tarrés Foundation. He will teach civic-legal training and use of short weapons classes. Spanish and English languages.
- INSTRUCTORS, section monitors, active military, who come voluntarily on vacation, or military personnel in a retired administrative situation, with extensive experience in the military, will lead the day-to-day life and will accompany the boys at all times, and will help in field and closed-order activities. They will play sports with them, they will give them theoretical and practical classes, and they will be with them during their leisure time, and they will be an important reference in the camp.

- There are female instructors, qualified monitors of leisure activities.
- Specialized and qualified monitor specifically for the activities of climbing.
- Certified aquatic lifeguard in charge of the camp pool whenever it is open, day or night.

We apply an emergency and security plan to plan for situations that may eventually arise.

Of course, all attendees will have full coverage by the camp's accident medical assistance and civil liability insurance with Mapfre. We have a very complete first aid kit in the camp, field first aid kits that travel on all personnel outings outside the farm and there is a complete and new hospital 10 minutes away by car, in Collado Villalba.

Boys and girls will not do exercises that are inappropriate for their physical condition, we will give each one the intensity and exercises that they can and demand, none that create disproportionate risks, nor that are especially strenuous; we are not in an operational army unit; and we firmly believe in waking them up to reality and fostering teamwork and camaraderie. They will provide military training academy-barracks services, with the necessary qualifications, but they will do them.

And they will sew, they will wash their clothes, they will sweep, they will watch over the sleep of their companions, and they will learn to belong, and to owe someone other than themselves.

3.- ACTIVITIES

This is the list of some of the activities, convinced that 7 or 15 days is not a lot of time, we are committed to doing them well and with advantage, there is no point in filling pages with activities that do not allow material time to be done, or if they are done, It's running. They are not all

and we can vary them depending on the programming, so it is not a contractual obligation.

✓ Civic and military behavior classes.

Special care in education in food, grooming, nails, hair, composure, hands in pockets, forms, manners, correctness in dealing with colleagues and superiors. Monitors, instructors and management will eat and live with them at all hours.

✓ Practical first aid classes, rescue in situations of armed conflict.

✓ Basic personal defense -not complicated martial arts-, "street" defense (adaptation to the urban or rural environment), and when to use it and how. Prohibited and permitted weapons, their possession and use.

✓ Daily gymnastics to the extent of capabilities. Application track (or American)

✓ survival and orientation exercises, and military hardening marches, and military and police patrols on the farm itself, airsoft combats. They will sleep at least one night in the countryside. We have more than 40 hectares, but we can use the rest of the natural park.

✓ Climbing, zip-lining, rappelling, etc., practiced on the property itself with a certified climbing instructor.

✓ Practical teaching of the military and police use of the pistol, the assault rifle, we will teach notions of precision shooter, especially rules and safety methods with weapons, (all those used will be airsoft and with proper protection).

✓ Swimming pool in the same camp. Always supervised by a qualified aquatic lifeguard in both daytime and nighttime activities. We will teach those who do not know how to swim minimally - to endure and survive - to those who do not know how. It is not a recreational pool, it is a pool for aquatic exercises.

- ✓ Carrying out preventive guard services and personnel assistance by the camp attendees themselves, dormitory imaginaries, cleaning of facilities, the idea is that they must work.
- ✓ Teaching of military closed order, formations, greetings, presentations, behavior, parade, etc.
- ✓ Tribute to the flag, its meaning, and constitutional framework. Having members of units from other countries, special emphasis on the treatment and respect for the signs and emblems of other nations.
- ✓ Camping and barracks games. Races and sectional competitions.
- ✓ We will have visits from Chiefs and officers and veterans who will share with us lived situations and peculiar circumstances and we will have the opportunity to share time with them.
- ✓ Visits to nearby military bases and the Civil Guard. Last years we visited El Goloso, and Base Príncipe (of the Parachute Brigade) and they came to the camp with a field unit of the Military Health Service, Visit to La Famet (school and helicopter base of the Army). *The previous two years have not been possible due to the circumstances of the Covid-19 pandemic, This 2023 it is very possible that they will be done normally. If visits outside cannot be made, other no less interesting activities will be carried out. In recent years we carried out assaults and seizures of hills by armed force carried out by all attendees duly directed against the monitors and barracks games.*
- ✓ We always have an end-of-camp event and a tribute to the Flag at a meeting with parents, family and friends on the last day before the march.

Once the registration application has been received and the 200 euros reservation has been paid, a place will be reserved until **payment of the rest of the amount that must be made before June 15, 2020**. Income made later we do not guarantee anything because in past years there were those who did not comply with the rules and there were kids who were unfairly left out as a result and we are new to allowing it. (For other payment methods contact the organization)

The costs of transporting participants from their place of origin to the camp and return to their place of origin are not included in the price of the activity.

Those who sign up after June 15 must pay the entire amount of the camp at the time of signing up. Upon June 15, reservations are no longer valid but rather a full and firm payment.

If you have any difficulty or doubt about signing up or for any other reason, do not hesitate to contact us at 666.536.964 and email mellado@mellado.es, with Jorge, because we are here to assist you.

The price includes:

- Charger and charged battery. To be able to call home during periods established. It is strongly requested that they be allowed to carry a cell phone, and if they do not have a cell phone, buy them a cheap prepaid one, since we can leave a cell phone in case of need to a few kids, but not to 200 kids.

Clothes and shoes:

- Two shorts (preferably dark in color and preferably black). Shorts, not tights or leggings. Tights or leggings are not allowed. They can only be worn under the corresponding shorts.
- A couple of t-shirts and sneakers, all free choice.
- Various services of underwear and socks, at least 5 changes, (at each person's discretion) since they will wash in the camp.
- Two summer pajamas.
- A sweatshirt or sweater. In 2019 we had really low temperatures in the month of July and August. The camp is at a high altitude and the climate is high mountain, and reinforcement of shelter under the jacket may be necessary. A sweater or sweatshirt, just in case, is enough.
- Military or mountain boots, high, at least four fingers above the ankle, the important thing is that the ankle is supported, this prevents 50% of injuries.

VERY IMPORTANT to use them before the Camp so that they do not cause injuries, wearing them a lot for a few days before the camp helps to mold them to the foot and not cause chafing or blisters. **Do not bring old boots or boots that have been borrowed for years, which, although they may look new, they are in appearance, as they are all worn out and break on the first day.**

- Swimsuit, towel and pool goggles, if desired, shower flip-flops. Girls pool swimsuit, bikini is not allowed.

Do not bring more clothing than you are told, because it will only hinder you in the camp.

Note-taking material:

- Half folio size notebook.
- Pen.

Airsoft equipment:

- Replica (Whoever has it), protective glasses (*Essential*), batteries *loaded*, charger, and balls at the discretion of each one. This is the minimum equipment to practice the activity. Any other additional equipment.
 - Anyone who does not have an airsoft replica can rent it at the camp itself, payment is made upon arrival at the camp. Price of 40 euros per week of stay. The price includes the replica, the balls and the glasses, if you rent you don't have to bring anything for airsoft or worry about it.

Due to the current legislation regarding Airsoft replicas (BOE of January 5, 2013 - Order INT/2860/2012 of December 27) we want to emphasize that the transfer, use and possession of said replicas is under the total responsibility of the assistant. . The camp organization will carry out the collection and custody of the replicas within the camp grounds. They will be delivered to attendees only for carrying out the corresponding activity, and later collected again until the end of the camp.

Any other equipment that you consider essential.

We must point out that there will be some equipment that you bring from home that we will remove from you because it is unnecessary or inconvenient, and it will be returned to you at the end of the camp.

Do not bring medications not prescribed by a doctor. If they need a little paracetamol, ibuprofen, it is given in proportion to their weight as you would do at home and with great caution.

We must emphasize that attendance at this camp SHOULD NOT BE a corrective, sanction, punishment, or similar for the attendee. Attendance is completely, completely voluntary, excited and eager to learn and have a good time.

IT IS NOT A CAMP TO PUT STRAIGHT ON

NOBODY.

IT IS NOT A BAD CAMP.

This activity is only designed for young people who wish to attend it VOLUNTARILY, and who have concerns, vocation and/or interest in the Armed Forces and the State Security Corps, regardless of whether their intention is to join them or not. If a situation as indicated was detected, the assistant would be removed from the activities and/or expelled, after notifying their parents or guardians.

The organization will include the participant in the contracted program, with the commitment to perform their obligations in accordance with the strictest professionalism, and will take the necessary precautions for the normal development of the activities, but will not be liable for any damages caused by third parties. alien to it. Participants accept the camp rules completely and without reservation, its schedules and activity plan, otherwise it means expulsion without any refund for any reason.

It is not recommended for excessively timid kids who are not used to doing any physical activity on a daily basis. It is not a camp to wake anyone up, it is a youth camp to have fun and learn and grow personally, it does not replace military service in any case. We cannot do in 7 or 15 days what you have not achieved in years. The camp, due to the schedules and continuous activities, involves a certain degree of hardness and personal will, not appropriate for kids who do not do any type of sport and are excessively passive, sedentary and of low spirits.

Once inside the facilities, the camp period begins, with the rules specified above remaining in force.

The organization of the camp **is not responsible for money or valuables**, nor of the losses of personal belongings and/or clothing that may occur during the development of the camp. They just need to bring some money in case they lose a piece of clothing or want to buy something in the store at a barracks where we are visiting. (maximum 30 euros). We have the camp store with material open throughout the camp and on the day of entry and exit, so if you want to buy something and do not have money before leaving, you can purchase it.

No one can leave the camp for any reason without knowledge or be accompanied by the camp monitors and managers.

All attendees must respect their classmates, instructors and monitors at all times. Likewise, they have the obligation to shower and wash themselves at the times established for this purpose.

Music players, video game consoles, or any other electronic device of this type cannot be used, and the monitors and instructors are authorized to remove and guard them until the end of the camp if their use is harming the proper development of the camp and the integration of the participants. .

The assistant's permanent possession of mobile phones, cameras or similar is not permitted. **These will be collected and guarded at all times by the camp organization.**, and they will be delivered for a previously established periodic use, calling the family, and then collected again.

Participants will be able to call home (except for unforeseen changes) on the days established by the organization that will be announced through our Facebook page. We usually leave a delay of 3 or 4 days until the first call to get parents and children used to it. The established call time will be from

If necessary and for obvious reasons of safety of the attendees, the organization could carry out searches of backpacks, bags, luggage and/or personal effects, as well as when the commission of an illegal act against the organization's property or employees is suspected. participants themselves.

If any participant has to take medication, they must notify those in charge of the camp upon arrival, since it is not advisable for them to have them in their possession. And they will be given to them according to the prescription each day.

Seeking the own interest and safety of the participants, the organization reserves the right of admission to those who have medical limitations for physical or psychological reasons, as well as psychological and medical reasons, which have not been informed, but which are detected once the participant has been received at the camp and that could put their health at risk in the programmed activities, or the health and safety of others at the discretion of the organization, admission being at the discretion of the technical team, informing the parents or guardians of the reason for the suspension and if he is removed from activities.

The consumption of food or drinks other than those provided by the camp kitchen service is not permitted, with the exception of those consumed during trips, or those justified by a special diet.

The assistants' own airsoft replicas travel, from origin to the camp and vice versa, under the total responsibility of the assistant, who at no time must use or display them outside the areas and activities prepared for this purpose (BOE of January 5, 2013 – Order INT/2860/2012 of December 27).

During the camp the replicas will be guarded by the organization at all times. They will be delivered to carry out the corresponding activity and then collected again.

The organization is exempt from liability in the event of the assistant's acquisition of any material during visits to stores scheduled by the organization, and the organization may proceed to the custody of said material.

acquired if it is likely to create a risk to the physical integrity of the acquirer or other persons.

In case of non-compliance with any of these criteria and rules, the organization will study it, taking the appropriate measures and reserving the right of expulsion from the camp, which in no case will give the right to compensation for any reason.

Any serious offense may mean the expulsion of the participant, after telephone contact with parents or guardians. All expenses that will arise will be borne by the parents/guardians, who will not be able to demand any type of refund. **In case of voluntarily leaving the camp, or due to injury or expulsion, no amount is returned for any reason since we pay the cost of the stays completely in advance.**

Likewise, any situation that occurs in the camp by any attendee, that could negatively influence its proper development, will be assessed by the organization, which will act accordingly, with special importance not to follow the camp activities. hinder them, or pose a bad influence on the rest of the attendees or incur any of the prohibitions, or pose a special hindrance or danger to the safety of third parties, their colleagues or monitors. In this case, the expulsion will proceed and no amount will be returned for any reason.

Registration and attendance at the camp implies acceptance of all the rules detailed above, both by the attendees and by the parents or guardians of the minor in all its points and sections.

Attendees must maintain the medication, if needed, just as when they go to school, even if the doctor gives "rest" during the vacation period, since the degree of attention and disposition must be the same as at school. Especially suitable for children who are affected by hyperactivity, who in many cases doctors give them a "rest" in the summer believing that they will be calm at home, but our camp has a level of demand close to that of school so that this pause while they are in camp is not convenient.

The pick-up and arrival of families and children to the camp will always be at times permitted and indicated by the camp's management, and provided that they do not interfere with its activities and always during the day, and in no case will the camp staff be obliged to attend to them during hours. night or that hinder the activities or rest of the rest of the attendees or monitors and members of the group. The hours of attention to parents are set by the camp and will always be from 9 a.m. to 8 p.m.

Our camp does not promote, nor does it intend to promote, any type of ideology, none, in a radically neutral way, is a camp for boys and girls excited about the police and military world eager to learn and take advantage of their time, and foster and enhance values of friendship, solidarity, commitment, dedication, work, effort, courage, among others, nothing more, and nothing less, which is why we do not tolerate any type of demonstration by anyone in any political or ideological sense.

10.- ARRIVALS TO THE CAMP

The starting days of the camp **We admit kids from 9:00 a.m. to 1:00 p.m. as a general rule**, because we want everyone to be registered, admitted and equipped to start doing things at lunchtime, whenever possible, if someone has no other way and arrives later they are also admitted.

Upon arrival at the camp you must notify your arrival, register, and deliver the following documentation:

1. Parental authorization and service provision contract with acceptance of conditions signed by both parents for minors or acceptance of conditions (for adults). It is located on the last pages of this file.
2. Medical questionnaire (last page of this file).
3. Proof of payments made.

11.- CAMP DEPARTURES

On the last day of each shift, that is, July 24, July 31, August 7 and 15, we hold an event in tribute to the Flag and the end of camp, so we open doors at 10:30, For the entry of vehicles and family members, they close at 11:45, and at 12:00 the event begins, which lasts approximately one hour. At the end of the event, your children will meet you in the parking lot and they will be able to march. The house does not give food on the last day to anyone, so everyone will do it on their own.

During the event and times before and after it we will have chairs for disabled and elderly people, as well as services for the public.

12.- ENTRANCES AND EXITS OF CHILDREN USING PUBLIC TRANSPORTATION.

Pick-up from the stations for those who come alone on public transportation.

We'll just go find and take Atocha, South Bus Station, and airport of Barajas.

This is an exclusive service for those who come from afar, not to facilitate comfort from no one.

On the day of arrival it is essential that they arrive at the station at 12:00 at the latest. They will arrive, they will all group together and wait, and from 12 onwards they will go out to look for them at the three stations and from the last one they will be taken to the station. estate. The cost of the trip is 30 euros, which is paid when boarding the bus.

Meeting point in Atocha at the monument that is a baby's head. In South Station at the access door. And at Barajas Airport in T1, T2, T3 and T4 in

the arrivals gate, where taxis are taken, they will group together to be together and wait for the bus.

The return from the camp to take them to the stations and from there to their homes will be around 3:00 p.m., the departure time of the camp bus, so considering that there is an hour's journey to Madrid, please bring the tickets. On the way back, take them from 5:00 p.m. onwards, and especially those who are traveling by plane should remember that they cannot get on the plane before 6:00 p.m. Those who use the return service will pay 30 euros when boarding the bus and 6 euros corresponding to the meal of the last day.

PHOTOGRAPHS AND VIDEOS OF THE CAMP.

Some will be published on social networks and everyone will be in the cloud at the following link, being able to view and download them if they wish, and they will remain until the start of the 2025 camp:

PARENTAL AUTHORIZATION-ACCEPTANCE OF CONDITIONS

*It must be signed by at least one of the parents or whoever has parental authority or by
the assistant if he is of legal age, all the sheets*

Mr./Ms. _____, with DNI _____ as father/mother/
guardian, I AUTHORIZE the minor to attend the indicated activity with full
acceptance of all the terms expressed in this document.

Attendee: _____ interested in attending and
participating in the activity called convened and organized by CAM-PAMENTO DE
ORIENTACIÓN CIVICO-MILITAR GONZALO FERNÁNDEZ DE CÓR-DOBA - EL GRAN
CAPITÁN, accepts and signs the following:

Both the participant and the parents or guardians in case of minority, are aware
and completely agree with the following points:

- 1.- They show their agreement with the activities scheduled for the development of
the event and accept any variation in the scheduled activities that the organizers
are forced to introduce due to any circumstance.
- 2.- That the assistant must accept the safety and behavior standards indicated by
those responsible for the activity, authorizing them to impose their professional
criteria.
- 3.- They authorize the camp management to treat minor wounds and conditions
and transport them by private vehicle to the nearest hospital emergency service,
and if necessary by ambulance, authorizing them in their absence to ensure health
and integrity of the assistant at all times, according to the guidelines of official and
regulated medicine.

I extend this authorization in case of maximum urgency, to those responsible for the
activity, with knowledge and prior medical prescription, to make the appropriate
medical-surgical decisions, in the event that my consultation is impossible.

- 4.- In case of abandonment or withdrawal of the assistant, or due to injury, whatever
the moment and the cause, once the camp has started, there will be no refund.

amount at all since the camp expenses are generated from the moment you enter it, and once it has started there is no possibility of filling that place.

5.- The assistant must assume and abide by the discipline by which the camp is governed, forms, manners and education, and that will be applied in the activity, otherwise it may lead to a sanction and depending on the severity, immediate expulsion.

6.- Possess an adequate state of health to carry out the activities of this camp, and sufficient psychophysical abilities to attend a summer camp together and with sufficient personal autonomy.

7.- Do not wear any type of piercing, earrings, bracelets, necklaces, etc. During the development of the activity, in addition to not taking any type of drugs, alcoholic beverages, or smoking, smoking is completely prohibited by law. Lighters, knives and any electronic and dangerous objects that are detected will be confiscated and will be returned at the exit.

8.- Not having omitted, distorted, hidden, or lied about the state of physical and mental health of the assistant, any omission, absence of medication if necessary, or falsehood will result in expulsion from the camp, without the right to any compensation.

If the assistant needs medication during the school year due to having ADHD, or any other illness or pathology, he or she must continue taking the medication during the camp, since the stress to which he or she may be subjected and the need for care is the same.

Failure to comply with the norms or rules established by the organization may be grounds for expulsion from the activity, and it will not be possible to request a refund of the amount paid in any case.

9.- VERY IMPORTANT. The camp attendee will remain there as long as they carry out the activities normally and regularly, and according to the organization's criteria. At the time he must stop the activity, at the discretion of the organization, because he is a danger to himself, to the monitors, or to other children, due to an illness that does not allow him to remain with dignity, or requires hospital admission, or the exclusive surveillance of the monitors, or due to incorrigible indiscipline, the family or those responsible who appear in the registration will be notified, and within the following 12 hours they will come to look for it

without any excuse, and without delay, regardless of their place of residence or stay, otherwise the Civil Guard and the Juvenile Prosecutor's Office will be notified to take charge of the minor and be cared for by the Community Social Services. of Madrid, (reserving the right to file legal actions against parents for damages caused by non-compliance with contractual conditions). It is therefore very important that if you are required by the camp management to pick up your child, you do so without untimely delays and collaborate with the smooth running of the activities.**Having contracted the camp does not mean that we must stay with your child regardless of whether he is parked there, and for the entire duration of the camp in any case, but it does mean the right to carry out the camp as long as it is in sufficient condition and does not involve a burden for the rest of the camp, management and group. The contract ends without the right to compensation of any amount at the time that your child, in the opinion of the organization, should not continue with the camp for its proper functioning.**

The camp management wants as many kids as possible to complete it, and hopefully all of them, since each abandonment or expulsion means a failure for us, for the kids, and for the family. There is nothing more satisfying for us than seeing them grow.

I exempt from all responsibility the organization of the Gonzalo Fernández de Córdoba Camp - El Gran Capitán- event, and the Instructors of the activity in case of any type of incident caused by disobedience or non-compliance with the established rules, as well as in case of acquisition by of the minor assistant, of any material during scheduled visits to businesses, and the organization may proceed to the custody of said acquired material if it is likely to create a risk for the physical integrity of the purchaser or other people.

The pick-up and arrival of families and children to the camp will always be at times permitted and indicated by the camp's management, and provided that they do not interfere with its activities and always during the day, and in no case will the camp staff be obliged to attend to them during hours. night or that hinder the activities or rest of the rest of the attendees or monitors and members of the group. The hours of attention to parents are set by the camp, and they expressly accept it, and will always be from 9 a.m. to 8 p.m.
